## **Company Profile**

### **Providing Security Solutions Wherever Lives and Property Are At Risk**

Cam-Dex Security Corporation is an industry leader in the field of Security Integration. Our clients include commercial customers from Health Care, Manufacturing, Utilities, Retail, Property Management, Colleges/Universities, and the Financial Industries. Our Government sector customers range from Federal, to State and City municipalities. Our company, founded in 1957 strives to provide the very best care for our customers and employees. We have full sales and service offices in both Kansas City and St. Louis. Promotion from within is our philosophy, generating on-going opportunities for our personnel. We provide in-house and factory level training for our technicians and customers.

### **Regional Scope**

Our skilled workforce deploys from our Kansas City and St. Louis offices. We are working on projects beyond the Midwest. Our associates consist of project managers, service technicians, installation personnel and IT technicians. Teamed with our partners from the Security-Net Corporation, Cam-Dex has implemented projects around the United States.

### **Technology**

Our seamlessly integrated security and life safety solutions address numerous commercial applications – from utilities, water and power plants, to high rise office buildings. Cam-Dex provides comprehensive solutions required to eliminate today's risks and scaled to adapt to your growth and change in the future. IP Video, and biometric access control working with the Government's Common Access Card, are fully FIPS 201 and HSPD 12 compliant.

### **Strategic Alliances:**

We have selected the very best manufacturing partners across all sections of our business. As a security systems integrator, we recommend the best products to satisfy our customer's needs. Not a product that we might own or manufacture. Cam-Dex Security Corp.'s buying decisions are totally independent of our manufacturer's requirements.

### **Our Work**

Your people, property, and assets are the focus of our staff. We work diligently to insure quality craftsmanship. Our project managers attend to your details. We work closely with your IT, Facilities, and Security management teams to provide a turn – key solution. Our service and training are the cornerstone of our business solutions.

## **Company Profile**

### **Providing Security Solutions Wherever Lives and Property Are At Risk**

RFI Communications & Security Systems is recognized one of the nation's leading physical and logical security integrators. Headquartered in San Jose, California, RFI Communications & Security Systems has been delivering integrated security and fire/life safety solutions for over 30-years. Our customers range from Fortune 500 companies, hospitals and universities, to government sectors and transportation authorities.

### **Regional Scope**

Our diverse and highly skilled workforce consists of approximately 250 employees deployed in our California, Nevada, and Washington offices. Our team of professional account managers, engineers, integration specialists and support staff combine their skills and knowledge to effectively stage and implement strategic security initiatives. Members of Team RFI have earned industry specific designations such as: CPP ( Certified Protection Professional), PSP (Physical Security Professional) , PE (Professional Engineer), CET, (NICET Level 4 Certification),

### **Technology**

As a technology leader, our integrated security and fire/life safety solutions address a broad spectrum of commercial applications – from communications in infrastructure facilities and intellectual property centers, to environmentally sensitive laboratories and sports and entertainment venues. RFI provides comprehensive solutions required to mitigate today's risks and scaled to adapt to your growth and change in the future.

Our CSAA Five Diamond Certified Monitoring Center maintains and supports advanced monitoring systems and comprehensive online data management tools. Staffed 24-hours a day, 365 day a year, RFI Monitoring Center operators respond to a variety of alarm conditions and managed services requests.

### **Strategic Alliances:**

Benefiting from strategic industry partners positioned from coast to coast, RFI maintains a national presence in the integrated systems marketplace. Additionally, we are proud to have earned the status of Platinum Authorized Dealer for many of the world's leading edge security technology manufacturers.

### **Our Work**

As it has been since the day we started in the security industry, we all share a greater responsibility to provide a safe and secure environment for people, property, and assets. We will continue to responsibly deliver integrated security and fire/life safety solutions wherever lives and property are at risk.

## Company Profile

### Providing Electronic Security Solutions That Surpass All Others

Since 1975, The Protection Bureau has supported a wide range of markets, including residential, commercial, governmental, industrial and institutional services. Whether it is a Fortune 500 company with multiple sites or a local business with one location, The Protection Bureau's team of experts deliver personalized service to seamlessly support your security need including Access Control, CCTV, Intrusion & Fire Detection, Emergency Mass Notification, Employee & Visitor Badging, Biometric Technology, Remote Account Management, Central Station Monitoring, and Design/Build Services.

### Regional Scope

Exceptional performance requires each department to work together cohesively toward a common goal to attain client satisfaction. In order to provide quality service along with advanced technology through its two offices and staff of 100, The Protection Bureau has revolutionized the process of true end-to-end security.

### Technology

As new threats emerge, continuous education on the latest technologies is needed to protect our clients against an internal or external security breach. To meet these needs, The Protection Bureau provides complete security services through integration and training of these enhanced technologies from many different manufacturers. This allows us to provide best of breed products. Our personnel, including highly-trained MCSE and NICET CET Certified technicians, designated professionals such as CPP, PE and PSP, exceed client expectations by owning the client's problem and fully understanding their needs, enabling us to deliver just the right solution. Our goal to educate our clients extends to monthly Lunch & Learn seminars and through speaking engagements throughout the industry. We pride ourselves on our ability to provide the technical leadership necessary to ensure a complete, comprehensive and economical program.

Our in-house 24-7-365 Central Station has achieved the prestigious CSAA Five Diamond Certification. Central Station Operators monitor our clients' fire/life safety, emergency call centers and are the life-saving link between the residential or business properties and the law enforcement, fire and emergency first responders.

### Strategic Alliances:

As a leading member of Security-Net, we are proud to be one of the industry's top independent integrators of security specialists networked together to support your needs. We are members and committee participants of PSA, ASIS, PBF AA, AAFA, BOMA, ICLEA, ISPE, IAHAS, to name a few. In fact, our founder, Keith Ladd was also a founding father of the PBF AA in the 1980's. Additionally, We are proud of our partnerships such as GE Platinum, Cooper Notification Channel Partner, Software House, and S2.

### Our Work

Awarded "Installer of the Year 2009" by Security Sales & Integration, The Protection Bureau is also consistently ranked by the industry as one of the "top system integrators" in the nation. Year after year, Security Distribution & Marketing (SDM) has validated The Protection Bureau as one of the top 10 integrators headquartered in the Mid-Atlantic Region.

**SIN 246-1000 Ancillary Services-Services - Includes, but is not limited to: services necessary to install the system (from design through start-up), maintain the system (including maintenance agreements, which may not exceed the term of this contract), or training.**

Ancillary Service **excludes:**

- C onstruction (construction is defined as alteration, or repair of buildings, structures, or other real property)
- Architectural Engineering Services (A&E) under the Brooks Architect-Engineers Act as stated in Federal Acquisition Regulation (FAR) Part 36. These services shall be ordered only in accordance with Part 36 and agency procedures, and shall not be included on a GSA contract order as an open market item.
- Personal services.
- Stand-alone services which are applicable to the Service Contract Act (SCA)

Contractors are responsible for the following when performing services under this SIN:

- Contractors may subcontract any ancillary services ordered under this Special Item Number, unless specifically prohibited by the contracting officer issuing the order against the Multiple Award Schedule contract.
- Contractors are responsible for insuring that the scope of work is completed and all warranties are honored.
- Subcontractors must be licensed and bonded, as applicable.
- Compliance with all local laws, regulations, and ordinances are the responsibility of the prime contractor.
- The prime contractor shall accept full responsibility and liability for all work performed by subcontractors, at any level or tier.
- The Government reserves the right to apply liquidated damages whenever the required delivery date is not met.
- Contractors are required to maintain insurance in accordance with Clause 52.228-5, Insurance – Work on a Government Installation.
- Agencies' Scope of Work will inform the Contractor of the Required insurance amounts. Clause 52.228-5 is made part of this contract by reference.

- The contracting officer for the ordering agency may insert any agency unique requirements for the job, including employee suitability determination requirements (security checks), into the scope of work.
- Contractor quotations shall specifically detail all products and services with the contract price and provide a single price for services.
- Sales of ancillary services shall not be combined or reported with the product SIN.

The ordering agency is responsible for:

- Defining and issuing the statement of work for ancillary services. Accurate definition of the scope and statement of work is essential to facilitate realistic quotations. The statement of work shall also inform the contractor of any applicable insurance requirements.
- Ordering agencies shall obtain pricing information from the schedule contractors, and will negotiate for ancillary services on an order by order basis, based on complexity and level of effort. Ancillary services shall be priced as separate line items on each order.
- Pricing of services has been determined fair and reasonable by GSA. However, ordering agencies shall make a determination that the total price is fair and reasonable based on the level of effort and the mix of labor proposed.
- Ordering agencies will comply with all appropriation laws and ensure that the correct types of funds are obligated on each order.

Reference FAR 8.4 for an explanation of ordering procedures used when purchasing through a Multiple Award Schedule contract.

**OFFERORS MAY ONLY OFFER THIS SPECIAL ITEM NUMBER IN CONJUNCTION WITH SYSTEMS OFFERED UNDER THIS SCHEDULE . THE PRINCIPAL PURPOSE OF THIS SCHEDULE IS FOR THE PURCHASE OF ALARM AND SIGNAL SYSTEMS/FACILITY MANAGEMENT SYSTEMS.**

**SIN 246-51 Installations requiring Construction**

INCLUDES: Installation which requires construction.

Note: Ancillary services involving installation which do not meet the definition of construction as defined in FAR 2.101 shall be covered under SIN 246-1000.

Note: This SIN specifically EXCLUDES Architectural Engineering Services (A&E) under the Brooks Architect-Engineers Act as stated in Federal Acquisition Regulation (FAR) Part 36. These services shall be ordered only in accordance with Part 36 and agency procedures, and shall not be included on a contract order as an open market item.

Contractors are responsible for the following when performing services under this

SIN:

- Contractors must comply with Construction Clauses and Davis-Bacon Regulations. The clauses shown in Appendix 1 to Attachment 3 of this solicitation will apply to agency orders placed against the schedule contract.

- Compliance with all local laws, regulations and ordinances are the responsibility of the GSA prime contractor. The prime contractor shall accept full responsibility and liability for all work performed by subcontractors under a resultant contract.
- Contractors shall review the statement of work issued by the ordering agency and provide a separate quote for services to be performed under this SIN based on the ordering agency's requirements. Should the contractor not be able to meet requirement(s) in the statement of work, the contractor's quote must specifically identify the items which have not been included in the quoted price.
- Contractors must provide bonding and insurance as required by the ordering agency's statement of work.
- Contractors may serve as a prime contractor and subcontract any services, including installation or site preparation, unless specifically prohibited by the ordering contracting officer. Subcontractors must comply with any licensing and bonding requirements specified in the statement of work.
- The contractor shall be responsible, accountable and liable for all work performed, including work performed by subcontractors (at all tiers), and for ensuring the work performed is completed in accordance with the ordering agencies statement of work.
- The contractor shall ensure all warranties are honored. All construction work must be guaranteed for any defect in workmanship and materials.
- The Government reserves the right to apply liquidated damages whenever the required delivery is not met in accordance with clause 52.211-12, Liquidated Damages – Construction.

When placing orders for services under this SIN, Ordering Agencies shall follow the procedures at FAR 8.405: The ordering agency is responsible for:

- Complying with all Federal Appropriation Laws and ensuring the correct types of funds are obligated on the order.
- When construction, alteration or repair of public buildings or public works is to be performed under this SIN, Ordering Agencies must comply and ensure contractor compliance with the Construction Clauses and Davis-Bacon Regulations. See Appendix 1 of the GSA solicitation for a complete listing of the FAR and GSAM Clauses incorporated by reference for all schedule contractors awarded this SIN. Ordering agencies shall utilize these clauses as a guideline and shall incorporate the applicable clauses into the statement of work for orders issued against the Federal Supply Schedule contract. The ordering agency is responsible for including the most current version of these clauses and any other applicable clauses into the order. Clauses which require "fill-ins" shall be completed by the ordering agency. Any agency specific clauses which may apply based on agency regulations or requirements shall be incorporated in the agency task order.
- Defining and issuing the statement of work for services, including installation and site preparation. It is essential that the ordering agency's statement of work includes an accurate description of the work requirement to facilitate realistic quotations.
- The statement of work shall clearly inform the contractor of all bonding requirements and any required insurance amounts.

- The ordering agency will provide the local Davis-Bacon wage rates to contractors. Applicable wage determinations will be incorporated into the statement of work and resulting task order.
- Reviewing quotations from schedule contractors to ensure the work proposed meets the statement of work requirements. The ordering agency should request the contractor to submit fixed price quotes to perform the services.
- The ordering agency shall evaluate all responses received using the evaluation criteria provided to the schedule contractors. The ordering agency is responsible for considering the level of effort and the mix of labor proposed to perform a specific task being ordered, and for determining that the total price is reasonable.
- Performance clauses shall be modified for each job by the ordering agency.
- Administration of orders issued under this Special Item Number.
- All orders and payments must be made to the schedule contractor or their designee.  
Example: A contractor may designate a participating dealer to receive payment.
